VETIQ® Serene Calming Supplement Chews 230G

FOR LARGE
DOGS

FOR SMALL DOGS
& PUPPIES

VETIQ® Serene Calming Supplement Chews are designed to soothe your dog during stressful times. Made with natural ingredients, these tasty chew provide essential amino acids, vitamins and minerals to reduce tension without sedation, offering a delicious roasted meat flavour that your canine will love.

- ✓ Our most comprehensive formula yet for maintaining calming behaviour in stressful situations
- ✓ Helps your pet in times of stress and promote relaxation
- ✓ Supports natural pathways in the brain
- ✓ Comprehensive suite of B vitamins - the stress vitamins to optimise balanced behaviour

VETIQ® Serene Calming Portable Diffuser & Refill

VETIQ® Serene Calming Portable Diffuser is a new calming innovation for cats & kittens to help calm and relax your feline friends at home when they experience separation anxiety, anxiousness or hyperactivity, without the sedative effect.

How it works: It works by releasing a pheromone into the air which helps your cat relax naturally. The unit covers up to 65 sqm & lasts for 30 days, after which a refill is required. No plugs or electricity needed.

How to use: Remove the cartridge from packaging. On the backside of the cartridge, pull the foil tab downward to remove seal backing. Slide the cartridge back into the holder along internal tracks.

VETIQ® Serene Calming Ointment 50g

Our Double Award Winning VETIQ® Serene Calming Rapid Relief is designed for those unexpected events or incidents such as fireworks, thunderstorms or travel that may cause your dog to be anxious suddenly. Our unique patented formula* is scientifically proven, easy to use and provides fast relief within 20 minutes.

How it works:

The ointment when applied to your dog's nose releases a pheromone allowing your dog to relax, calm and settle quickly.

How to use:

VETIQ® Serene Calming Tablets

VETIQ® Serene Calming naturally calms and helps pacify pets without the need for tranquilisers. Serene Calming helps pets to stay calm through stressful events, without sedating or impairing learning systems in the brain. This means it not only helps them at the time but also aids the learning process so they can cope better in the future.

How it works: It works by working with the body to produce more of the mood stabilising substance called serotonin which reduces anxiety and fear. VETIQ® Serene Calming is totally safe and effective and can be used for prolonged periods of time.

How to use: Simply, crumble tablet & add to food or if preferred it can be given whole.

VETIQ® Serene Calming Drops

VETIQ® Serene Calming naturally calms and helps pacify pets without the need for tranquilisers. Serene Calming helps pets to stay calm through stressful events, without sedating or impairing learning systems in the brain. This means it not only helps them at the time but also aids the learning process so they can cope better in the future.

How it works: It works by working with the body to produce more of the mood stabilising substance called serotonin which reduces anxiety and fear. VETIQ® Serene Calming is totally safe and effective and can be used for prolonged periods of time.

How to use: Pour recommended amount of liquid over a small amount of your pet's food at the beginning of feeding time, ensure the full amount has been taken. Then proceed with remainder of their meal.

VETIQ® Serene Calming Plus +

VETIQ® Serene Calming naturally calms and helps pacify pets without the need for tranquilisers. Serene Calming helps pets to stay calm through stressful events, without sedating or impairing learning systems in the brain. This means it not only helps them at the time but also aids the learning process so they can cope better in the future.

How it works: It works by working with the body to produce more of the mood stabilising substance called serotonin which reduces anxiety and fear. VETIQ® Serene Calming is totally safe and effective and can be used for prolonged periods of time.

How to use: Simply, crumble tablet & add to food or if preferred it can be given whole.

APPLE

VETIQ® Denti Care Range

VETIQ® Denti Care Solution 100ml

VETIQ® Denti Care Solution is the easy way to prevent plaque and tartar build-up and promote fresh breath for your pet. VETIQ® Denti Care Solution has been specially formulated to allow the pet owner to give their pet the very best oral care and to help maintain good dental health without the need or fuss of a toothbrush.

How it works: The active ingredients in VETIQ® Denti Care Solution help to control tartar production and prevent the growth of odour causing bacteria in the mouth.

How to use: It's easy to use and no more brushing is required. Simply add to the pet's water bowl daily to be consumed through normal water intake.

VETIQ® Denti Care Powder 60g

VETIQ® Denti Care Powder are a unique blend of natural ingredients, which works with your pet's natural cleansing mechanism to reduce oral bacteria and freshen your pet's breath.

How it works: VETIQ® Denti Care Powder contains seaweed which helps normal salivary gland function whilst reducing oral bacteria, natural antioxidant pomegranate extract helps to support immune function and peppermint oil freshens a pet's breath.

How to use: Simply mix the powder with your pet's food

VETIQ® Denti Care Kit

VETIQ® Denti Care Kit is an easy way to prevent plaque and tartar build-up and promote fresh breath for your pet. Including a finger brush and bamboo toothbrush which aids easy application, no need for rinsing.

How it works: VETIQ® Denti Care Kit contains a range of ingredients proven to help boost oral pet health. These carefully chosen ingredients help fight tartar & plaque, clean teeth and freshen your pet's breath. The natural anti-bacterial action of this palatable toothpaste contains a glucose oxidase enzyme, which acts to reduce the microorganisms responsible for tartar build-up, leaving your pet's mouth squeaky clean and odour free.

How to use: Apply a small amount of the VETIQ® Denti Care Kit Enzymatic toothpaste to the toothbrush or finger brush supplied and brush on to your pet's gums and teeth by holding the brush in one hand and lifting your pet's lips with the other hand.

VETIQ® Enzymatic Toothpaste 70g

VETIQ® Denti-Care Enzymatic toothpaste contains an advanced formula with a range of ingredients proven to help boost oral health. These carefully chosen ingredients help to reduce tartar, clean teeth and freshen your dog's breath. The anti-bacterial action of this palatable toothpaste helps target plaque and tartar

How it works: This formula contains Glucose Oxidase enzyme, which acts to reduce the microorganisms responsible for the build-up of tartar and leave your pet's mouth squeaky clean and odour free

How to use: Put a small amount on your finger, allow your pet to lick it off. Lift your pet's lips upwards. Apply paste along the gum line with your finger. Massage your pet's cheeks from the outside, no rinsing required. If using the toothbrush and finger brush from the Denti-Care Kit, please rinse after use.

VETIQ® Denti Care Spray 100ml

VETIQ® Denti Care Spray contains an advanced formula designed to help reduce oral bacteria, maintain gum health, prevent the formation of plaque and freshen breath.

How it works: VETIQ® Denti Care Spray contains a unique blend of Pomegranate extract, Peppermint and Parsley seed oil, it freshens your pet's breath whilst promoting a clean healthy mouth. VETIQ® Denti Care Spray also contains a special form of Vitamin C, that not only promotes normal collagen formation in the gums, it can also help manage plaque on the teeth.

How to use: Ease of use is ensured with a 360° spray nozzle for total coverage of the internal oral cavity. The spray applicator has a low noise application so it will not frighten your pet.

VETIQ® Teething Gel 50g

VETIQ® Teething Gel contains natural calming and soothing properties to relieve a puppy's sore gums. By soothing sore gums it also helps to reduce the amount of chewing a puppy may need to do to ease the pain during the teething period.

How it works: It contains camomile, peppermint and clove oils which combined have analgesic properties to reduce pain and antibacterial properties known to reduce tenderness and help soothe sore gums and reduce the likelihood of infection.

How to use: It comes in a tube with a dispenser allowing easy application. Gently apply it straight to the gums and then holding the outside of their mouth massage in a circular motion. You can also use on teething toys and a puppy Kong.

Healthy Bites Denti Care 65g

Healthy Bites Denti-Care 65g are formulated for dental health. They have a crispy cereal shell which when cracked open massages gums and scrapes the tooth surface helping prevent the formation of plaque. The cream-filled centre contains nutritious natural anti-microbial agents, including clove oil for fresh breath, there is no brushing required to help keep teeth and gums healthy for your feline friend!

- Helps prevent the formation of plaque
- Helps reduce tartar build-up
- Contains clove oil to freshen breath

TASTY CHICKEN

Healthy Treats Denti Care 70g

Healthy Treats Denti-Care are specifically formulated to enhance and maintain your dog's dental health. The cream-filled centre contains nutritious natural anti-microbial agents, including peppermint oil for fresh breath, there is no brushing required to help keep teeth and gums healthy for your canine companion!

- For clean teeth & healthy gums
- Helps control plaque & tartar build-up
- Contains peppermint oil for fresh breath

DELICIOUS DUCK

Healthy Treats Denti-Care Teething 50g

Healthy Treats Denti-Care Teething 50g contain natural chamomile, peppermint and clove oils which help provide soothing relief from teething & freshen your pup's breath. By soothing your pet's sore gums, it also helps to reduce the amount of chewing a puppy may need to do as the treats eases your pet's dental pain.

- Helps to reduce chewing
- Soothe irritated gums control plaque & tartar build-up
- Contains Clove Leaf, Chamomile powder and Peppermint Oils for fresh breath

TASTY CHICKEN

POMEGRANATE

VETIQ® Hygiene & Grooming Range

VETIQ® Ear Cleaner 100ml

VETIQ® Ear Cleaner 100ml is a gentle, non-toxic ear cleaning solution for dogs and cats which can help remove debris such as dirt and wax build-up and aid in keeping your pet's ears clean and dry. The unique formulation has the added benefit of limiting any staining or discolouring or hair around the ears.

How it works: Containing natural Neem Oil, which has proven antibacterial and antifungal properties and is a natural cleanser. It also soothes irritation and works gently on the ears to keep them clean and free from debris.

How to use: The nozzle attachment allows easy application to the pets' ears. With regular use VETIQ® Ear Cleaner in conjunction with good pet ear grooming will help to prevent ear mite infestations.

VETIQ® Flea-Guard Tablets

VETIQ® Flea-Guard Granules contains a totally natural unique blend of ingredients which helps to repel fleas & ticks. No drops to put on the back of the neck; no lasting chemicals in your pets' skin or bloodstream.

How it works: Containing a blend of B vitamins, yeast, zinc and garlic which help to make your pet's blood less palatable to fleas, tick & mosquitoes & helping to reduce the risk of infestations. In addition, this blend of ingredients has the benefit of reducing the soggy doggy smells, whilst also keeping their coat glossy & skin healthy.

How to use: Give whole or simply mix crushed tablets with the pet's food.

VETIQ® Flea-Guard Granules

VETIQ® Flea-Guard Granules contains a totally natural unique blend of ingredients which helps to repel fleas & ticks. No drops to put on the back of the neck; no lasting chemicals in your pets' skin or bloodstream.

How does it work? Containing a blend of B vitamins, yeast, zinc and garlic which help to make your pet's blood less palatable to fleas, tick & mosquitoes. helping to reduce the risk of infestations. In addition, this blend of ingredients has the benefit of reducing the soggy doggy smells, whilst also keeping their coat glossy & skin healthy. This product does not contain added salt, sugar or preservatives.

How to use: Simply mix granules with the pet's food.

VETIQ® Tear Stain Remover 100ml

VETIQ® Tear Stain Remover is a gentle non-toxic tear stain remover for dogs and cats. It assists in the removal of stubborn and unsightly stains around the eyes and other areas of the coat.

How it works: Contains mild cleansing agents that help to condition the hair and attracts water to the hair to moisturise and improve lustre.

How to use: Repeated use will stop stains and discolouration from forming and will also prevent re-occurrence. Continuous use may also be required in certain breeds that are prone to tear stains and early application is advisable as stains can become embedded and stubborn to remove.

Healthy Treats Flea Guard 70g

Healthy Treats Flea Guard 70g contain a unique blend of ingredients which help to repel fleas, ticks & mosquitoes naturally, whilst also containing B vitamins & Omega 3 & 6 fatty acids for a healthy skin & coat. VETIQ® Everyday Range

WE LOVE... WE CARE... WE SHARE YOUR PASSION FOR PETS

VETIQ® Hairball Relief Paste 70g

VETIQ® Hairball Relief Paste is a combination of natural ingredients which gently lubricate the system giving a mild laxative effect that removes the hairball and reduces future blockages.

How it works: VETIQ® Hairball Relief Paste coats the swallowed hair and the stool and allows it to pass through the digestive system of cats and other pets, removing the hairball and reducing the likelihood of future blockages.

How to use: Place VETIQ® Hairball Relief Paste on the front paws or on the nozzle, where the cat or rabbit can lick it off. When your pet is hungry, they will lick it directly from the tube or from your finger. Alternatively, you can mix into your pet's food.

VETIQ® Skin & Coat Oil 250ml

VETIQ® Skin & Coat Oil is an edible skin and coat conditioner, specifically formulated to promote a healthy skin & glossy coat and reduce seasonal shedding.

How it works: VETIQ® Skin & Coat Oil contains a unique blend of ingredients which provide a highly concentrated source of Omega 3 and Omega 6 fatty acids, essential for a lustrous, glossy coat. In addition, Vitamin E has been included to help soothe dry and flaky skin and to reduce excessive moulting.

How to use: Product can be fed directly to your pet or mixed in with their food.

VETIQ® Green Um 100s/175s/350s

VETIQ® Green-UM Lawn Burn Solution tablets contain active ingredients which are especially formulated to control nitrogen waste products in your dog's urine and helps prevent unsightly yellow spots appearing on your lawn.

How it works: This effective supplement also contains the plant extract *Yucca schidigera*, which helps bind nitrogen in the dog's urine. It also contains essential B Vitamins and amino acids. The product performs best when administered in conjunction with a protein-controlled diet.

How to use: Tablets may be given directly to your dog or crushed over food.

Healthy Bites Hairball Relief 65g

Healthy Bites Hairball Relief 65g are wheat free bites comprised of a delicate crispy cereal shell with a health enhancing cream-filled centre, packed with essential nutrients.

The bites help remove hairballs and reduce the likelihood of future blockages.

- Helps to prevent & remove hairballs
- No more messy pastes
- Contains prebiotic fibre to aid digestion
- Contains Omega 3 & 6 fatty acids

APPLE

VETIQ® Digestion Range

VETIQ® Stool Firm Tablets

VETIQ® Stool Firm Tablets combined ingredients help to produce a firmer stool for your pet. Loose stools may be caused by diet change or as a young pet diet graduates to nutritionally dense foods. It also helps aid the relief of symptoms of mild diarrhoea.

How it works: VETIQ® Stool Firm Tablets contain a unique blend of Pectin & Pumpkin, which help to increase stool firmness. The formulation promotes a healthy intestinal tract with the presence of Kaolin for toxin absorption and prebiotic fibre inulin, to promote the presence of beneficial gut bacteria. VETIQ® Stool Firm Tablets combined ingredients help to produce a firmer stool to enable the pet owner to dispose of the waste easily and hygienically.

How to use: Give one tablet per 10kg of bodyweight daily for 7 days. Please consult a vet in cases of persistent diarrhoea.

VETIQ® Urinary Care Paste 100g

VETIQ® Urinary Care Paste 100g provides a concentrated source of Taurine, DL-Methionine and natural cranberry extracts. This unique formulation reduces the urinary pH and acts as an aid in the management and maintenance of your pet's urinary tract.

How it works: It contains an essential amino acid that helps to naturally lower urinary pH, which helps minimise urinary tract problems. VETIQ® Urinary Care Paste also maintains a healthy urinary tract due to the presence of cranberry extracts. Its natural antioxidant helps protect against free radical damage.

How to use: Introduce the paste to your pet by applying a small amount to your finger and allowing the pet to lick it off. Then apply the desired amount depending on the size of your cat. Alternatively, simply mix with the pet's food.

Healthy Bites Urinary Care 65g

Healthy Bites Urinary Care 65g are wheat free bites comprised of a crispy cereal shell with a health enhancing cream-filled centre, packed with cranberry extract and antioxidants to help maintain a healthy urinary tract.

They also contain plant extract to help reduce litter tray odours

- With Cranberry for a healthy urinary tract
- Source of prebiotic fibre for good digestion
- Helps reduce litter tray odours

TASTY CHICKEN

VETIQ® Training Range

VETIQ® Toilet Training Drops 60ml

VETIQ® Toilet Training Drops helps train your puppy or dog to toilet in one spot. Training Aid is suitable for puppies that are finding it difficult to learn where they need to toilet or older dogs who have been rehomed..

How it works: VETIQ® Toilet Training Drops is an oil-based liquid that duplicates the smell of a sexual hormone that attracts dogs. The hormone is known as pheromone and that is what the dog is seeking when he goes sniffing looking for a place to “go”.

How to use: Place several drops of VETIQ® Toilet Training Drops on newspaper or in a box. After each of the first few meals, take your puppy to the spot and allow him sniff Training Aid to encourage them to “go”. Then gradually move to outside area.

VETIQ® Stool Repel Tablets

Coprophagia is a behavioural condition where puppies & dogs consume their own faeces. VETIQ® Stool Repel tablets have been specially formulated to deter this behaviour.

How it works: VETIQ® Stool Repel contains Capsicum Extract, a lachrymatory agent, helps to deter a puppy or dog from eating its own stools by causing a mild irritation to the eyes and a mild burning sensation if the stool is eaten. VETIQ® Stool Repel functions within the intestine by making your dog's stool less tasty, therefore, it will not deter dogs from eating other dog's stools.

How to use: The tablets can be given whole or mixed with the pet's food.

WE LOVE... WE CARE... WE SHARE YOUR PASSION FOR PETS
